

**STARTRADER FINANCIAL
MARKETS LIMITED**
CLIENT AGREEMENT

STARTRADER Financial Markets Limited

RISK WARNING: Trading in leveraged derivative products – including but not limited to Margin Foreign Exchange (FX), Contracts for Difference (CFDs), and other financial instruments – carries a significant level of risk and may not be suitable for all investors. These products are inherently complex and involve the use of leverage, which allows you to gain exposure to larger positions with a relatively small amount of capital. While leverage can amplify profits, it equally magnifies losses, and small market movements can result in substantial losses that exceed your original investment. The prices of these instruments can be highly volatile and may move rapidly in unpredictable ways, exposing you to sudden and significant financial losses. In adverse conditions, you may be required to deposit additional funds at short notice to maintain your positions, and failure to do so could result in the forced closure of your trades and further losses. You should not engage in trading these products unless you fully understand the nature of the instruments and the risks involved, including how leverage works and the potential for margin calls and liquidation. It is essential to evaluate your investment objectives, financial circumstances, level of trading knowledge and experience, and ability to bear losses before making any investment decisions. You should only trade with money you can afford to lose, and not rely on borrowed funds or capital needed for essential expenses. If you have any doubts about the suitability of such products or require assistance in assessing the associated risks, you are strongly recommended to seek independent professional financial advice before proceeding.

Client Agreement

All clients are provided with margin monitoring functionality. This functionality monitors the level of collateral should it drop below 100% of the required margin. If it drops below 100%, the margin call mode will be triggered and maintained until the level of 50%. Should the margin level equal to, or drop below 50%, STARTRADER will initiate the closing of current open positions, starting from the most unprofitable considering trading hours of instruments traded by the client. STARTRADER will evaluate the inquiry and at its discretion, may credit the client's account with the amount of the negative balance where the debit was during normal trading activity.
